## Open Rank-Assistant or Associate Professor Physician or PhD Scientist in Polycystic Kidney Disease

The **Division of Renal Diseases and Hypertension** is internationally renowned for its clinical and research programs. In addition, as one of the largest Nephrology research and training program in the country, the Division is also internationally recognized for its role in producing academic leaders in Nephrology. The Division consists of over 50 faculty located in three hospitals and one research institute. These include University of Colorado Hospital, Denver Veterans Administration Hospital, and Denver Health. The *Division Mission* is to develop the next generation of leaders in Nephrology through its transformative research, comprehensive career development, and world-class care. The *Division Vision* is to be the source of superior healthcare, push boundaries of discovery, advance medical education, and create hope for patients with kidney disease through cutting edge treatments and kidney transplantation.

The Division of Renal Diseases and Hypertension at the University of Colorado Anschutz Medical Campus is **seeking an outstanding physician-scientist or PhD-scientist in the area of polycystic kidney disease** (PKD). This individual will contribute to research, and other programmatic missions of the PKD translational research group.

### **Examples of Work Performed**

The candidate's primary responsibilities will be to conduct impactful research in the area of polycystic kidney disease (PKD) and participate in the PKD Translational Group research program. The ideal candidate will have a record of scholarly productivity, mentorship and have received funding from the National Institute of Health or other Federal Funding agencies.

### **Salary and Benefits**

The salary range (or hiring range) for this position has been established at

Assistant Professor: \$74,000 to \$185,000

Associate Professor: \$104,00 to \$229,000

The salary of the finalist(s) selected for this role will be set based on a variety of factors, including but not limited to, internal equity, experience, education, specialty, and training.

### **Qualifications**

#### Minimum Qualifications

- Assistant/Associate Professor
  - MD, MD/PhD, PhD, DO, or international equivalent terminal degree.
  - Proven record of academic leadership abilities, as well as a demonstrated commitment to education and mentoring.
  - Medical license (MD or MD/PhD only)

#### Preferred Qualifications

- A record of scholarly achievement and extramural funding.
- Excellent communication skills to interface with learners, faculty, healthcare teams, administrators, and community organizations.

#### Knowledge, Skills, and Abilities

- Accomplishment in basic and/or translational research and building relationships with clinical researchers
- A demonstrated commitment to education and mentorship of medical and graduate students, residents and fellows.
- Applicants must meet minimum qualifications at the time of hire.
