

KUH KURE

SUMMER RESEARCH

2026

About KUH KURE:

The Kidney, urology, and non-malignant Hematology (KUH) Undergraduate Research Experience is a 12-week (9 weeks on campus), NIH-funded Summer Research Program. This program focuses on biomedical research, allowing you to learn about advances in "KUH" research and be mentored on a research project in a lab by the University of Alabama at Birmingham's renowned KUH community of investigators.

HOW TO APPLY

- Applications open mid-November
- Interviews start in late January
- Virtual onboarding: May 18th to 29th
- Campus program: June 1st to July 30th

OPPORTUNITIES

- ✓ Mentorship
- ✓ Clinical Experience
- ✓ Competitive Stipend
- ✓ Poster & Oral presentations
